Emergency Service Funding Opportunity

We have scheduled an informational meeting with the United States Department of Agriculture (USDA) for Wednesday June 29, 2011 at 7:00 PM to be held at the Anthony "Tony" Canale Training Center.

On June 15, 2011 we met with representatives and determined that the USDA has funding opportunities for emergency service organizations to possibly fund the following projects:

1. VHF Narrow banding requirements
2. County 800MHz Radio System Upgrade Project – Conversion to Project 25

Representatives of the USDA will make a presentation of the current and future funding opportunities that your agencies may be able to benefit from. After the presentation they will be able to meet with your agencies to discuss your needs and how they could possibly help.

5033 English Creek Avenue • Egg Harbor Township, NJ 08234-5743
